1.) When were the colonies moved to this location, and when did you first observe the bee kill?

____________________________________________________________________
____________________________________________________________________
____________________________________________________________________

2.) What were the bees pollinating/foraging on at the time of the incident?

____________________________________________________________________
____________________________________________________________________
____________________________________________________________________

3.) Has anyone else examined the colonies?

☐ Yes  ☐ No
3a.) If yes, please give their name(s) and phone number(s)

__________________________________________________________________________________
__________________________________________________________________________________

4.) Have the colonies been treated for mites or diseases within the last six months?
☐ Yes  ☐ No

4a.) If yes, please provide the name of the product(s) used and the treatment date(s).

__________________________________________________________________________________
__________________________________________________________________________________

5.) **Please explain the incident in detail.** Be sure to describe any observations you made (i.e. severity of bee kill, behavior/appearance of bees, nearby blooming crops/weeds) and the suspected source of the pesticide (if known). **You need to include a preliminary estimate (dollars) of the amount of damage sustained.** It would also be helpful to know the parties involved in this incident (i.e. landowners, growers, applicators). **You may attach additional pages if needed.**
